

## Senior Legal Counsel for Innargi - Construction

*Are you an experienced construction lawyer?*

*Are you looking for a unique opportunity to put your legal skills to play in a truly commercial context and help shape contracting strategy and development in the renewable energy sector?*

*And do you thrive with working across disciplines in a quickly changing but supportive and professional environment?*

### **We offer**

Innargi is a geothermal company delivering energy for heating, founded in 2017 by A.P. Moller Holding and today jointly owned by A.P. Moller Holding, ATP and NRGi.

We are a small entrepreneurial and highly energised organisation. We work hard and we have fun doing it. As a team, we see our different backgrounds and experiences as a genuine source of strength, and we respect each other's technical and functional competencies. Our structure is lean and flat. We believe strongly in value creation through empowering our employees, and you will have significant independence to impact your role, as well as be expected to collaborate across disciplines. The team is small and agile with a variety of tasks to carry out, and we pull together to accomplish our goals. You will join a dynamic and growing company, where you will help shape and develop our business as a whole.

### **Job description**

As Senior Legal Counsel, you will report to our General Counsel and be expected to play a key role in developing our contract strategy and building contracts to support our technical teams and our project teams. The work includes drafting and negotiating EPC contracts, long term lease agreements, commercial contracts, and consultancy and services agreements – in short, all the legal support needed to realise our geothermal heat projects. When needed, you will work with external counsel to develop our contracts.

The following work tasks also fall within your responsibility:

- Handle the legal aspects of the company's supplier contracts.
- Engage and oversee the work and partnership with the company's external counsel to ensure cost effective and best-in-class advice is provided.
- Maintain knowledge of the company's operations and legal documents, incl. preserving and maintaining corporate records.
- Draft and update internal legal procedures, best practices and standard documents.

The position as Senior Legal Counsel will be based in Lyngby. Infrequent travelling may occur.

### **We are looking for**

Our new Senior Legal Counsel must hold a master's degree in Law and should have a minimum 5 years' experience working with construction law, preferably from a big law firm or construction company. Additional experience from working with tenancy law or commercial contracts is preferable.

Furthermore, you are:

- Confident working in a small legal team to support colleagues across multiple functions.

- Comfortable taking on assignments outside area(s) of expertise.
- Equipped with a keen eye for structuring, organising and scaling legal processes and contracts.
- Pragmatic with a commercial mindset.

### **About us**

As Global warming continues to impact climate change, it's time to rethink the way we heat our urban buildings. Innargi wants to heat millions of urban homes while leaving zero impact on our planet by unearthing geothermal energy.

Our natural world is precious, and we can all make small changes to the way we live. But what our climate really needs is change at scale. Solar and wind have already transformed how we produce energy. What those technologies have done for electricity, geothermal can do for heating.

Innargi has the team to make it happen. With our combined knowledge and expertise on subsurface, drilling, engineering, and energy planning and through close partnerships with local district heating companies, we are in a unique position to turn ambitious plans into real change.
