

Business/Economics Student Assistant for Commercial Department in Innargi

Note: This position requires fluency in German.

Are you fluent in German and do you study business or economics?

Do you want to help Innargi with international business development in Germany and other countries?

Are you known for your proactive, positive attitude?

And would you like to work on market segmentation, research, and business development with our colleagues for the German market and other target markets?

We offer

Innargi is a geothermal company delivering renewable energy for heating into district heating systems, founded in 2017 by A.P. Moller Holding and today jointly owned by A.P. Moller Holding, ATP and NRGi.

We are an entrepreneurial and highly energised organisation. We work hard and we have fun doing it. You will be part of scaling the commercial organisation of Innargi so there will be a lot of variety in the tasks as we pull together to deliver new business.

As a team, we see our different backgrounds and experiences as a genuine source of strength, and we respect each other's technical and functional competencies. Our structure is lean and flat. We believe strongly in value creation through empowering our employees, and you will have significant independence to impact your role as well as be expected to collaborate across disciplines.

The team is small and agile with a variety of tasks to carry out, and we pull together to accomplish our goals. You will join a dynamic and growing company where you will help shape and develop our business as a whole and the future of the geothermal heating market.

Job Description

As Student Assistant for the Commercial Department, you will report formally to the Chief Commercial Officer but predominantly work on opportunities and tasks with our colleagues progressing German business opportunities.

The tasks will be varied, including market research into potential customers, assisting with sales and marketing strategies for customers, and helping with pitch and offer materials. You will also help the CCO with commercial operations tasks such as sales process and sales management.

The position is based in our HQ in Lyngby, Denmark.

We are looking for

You are currently studying business, economics, or a similar subject with an interest in learning about business development and commercial work. You are comfortable working in English – both written and oral, and you are fluent in German. You thrive with delivering on a variety of projects, and your working style is pragmatic, efficient, and detail-oriented when required. You have experience with Office365 tools and in particular Excel, Powerpoint and Sharepoint. As a person, you are a team player with a positive attitude, drive, and a proactive mindset, seeking and taking on tasks as they come in.

About us

As Global warming continues to impact climate change, it's time to rethink the way we heat our urban buildings. Innargi wants to heat millions of urban homes while leaving zero impact on our planet by unearthing geothermal energy.

Our natural world is precious, and we can all make small changes to the way we live. But what our climate really needs is change at scale. Solar and wind have already transformed how we produce energy. What those technologies have done for electricity, geothermal can do for heating.

We have the team to make it happen. With our combined knowledge and expertise on subsurface, drilling, engineering, and energy planning and through close partnerships with local district heating companies, we are in a unique position to turn ambitious plans into real change.
