

Senior Legal Counsel for Innargi – Business Development

Do you have a successful track record with the legal aspects of business development?

Are you looking for a unique opportunity to put your legal skills to play in a truly commercial context and help shape contracting strategy and development in the renewable energy sector?

And do you thrive with working across disciplines in a quickly changing but supportive and professional environment?

We offer

Innargi is a geothermal company delivering energy for heating, founded in 2017 by A.P. Moller Holding and today jointly owned by A.P. Moller Holding, ATP and NRGi.

We are a small entrepreneurial and highly energised organisation. We work hard and we have fun doing it. As a team, we see our different backgrounds and experiences as a genuine source of strength, and we respect each other's technical and functional competencies. Our structure is lean and flat. We believe strongly in value creation through empowering our employees, and you will have significant independence to impact your role, as well as be expected to collaborate across disciplines. The team is small and agile with a variety of tasks to carry out, and we pull together to accomplish our goals. You will join a dynamic and growing company, where you will help shape and develop our business as a whole.

Job description

As Senior Legal Counsel, you will report to our General Counsel and be expected to play a key role in developing our contract strategy and build and negotiate customer contracts to support our international business development team as we move our business into new jurisdictions. This includes drafting and negotiating long term heat supply contracts in cooperation with our business developers and external foreign counsel.

You will also be working with our General Counsel on M&A projects as well as day-to-day commercial and corporate assignments across group entities, including compliance, NDAs, consultancy agreements etc. As part of your work, you will also take part in structuring the commercial and corporate work-flows in the legal team to ensure scalability to support our growth.

The following work tasks also fall within your responsibility:

- Support the management of the company's legal matters on a daily basis
- Oversee the work and partnership with the company's external counsels to ensure cost effective and best-in-class advice is provided
- Maintain knowledge of the company's operations and legal documents, incl. preserving and maintaining corporate records
- Support internal awareness and understanding in the company of relevant laws and regulations relevant to our business
- Provide advice on regulatory matters and policies
- Support compliance and risk management
- Advise and assist with corporate matters related to our group
- Draft and update internal legal procedures, best practices and standard documents.

The position as Senior Legal Counsel will be based in Lyngby, Denmark. Travelling will occur.

We are looking for

Our Senior Legal Counsel must hold a master's degree in Law and should have a minimum 5 years' experience drafting and negotiating complex contracts. Additional experience from working with M&A, compliance or commercial contracts is preferable. We are looking for a colleague who:

- Is confident working in a small legal team to support colleagues across multiple functions.
- Is an active team player and is comfortable taking on assignments outside one's area(s) of expertise.
- Is open-minded in their approach to solving commercial challenges.
- Is pragmatic with a commercial mindset.
- Has an eye for structuring, organising and scaling legal processes and contracts.

About us

As Global warming continues to impact climate change, it's time to rethink the way we heat our urban buildings. Innargi wants to heat millions of urban homes while leaving zero impact on our planet by unearthing geothermal energy.

Our natural world is precious, and we can all make small changes to the way we live. But what our climate really needs is change at scale. Solar and wind have already transformed how we produce energy. What those technologies have done for electricity, geothermal can do for heating.

Innargi has the team to make it happen. With our combined knowledge and expertise on subsurface, drilling, engineering, and energy planning and through close partnerships with local district heating companies, we are in a unique position to turn ambitious plans into real change.
