

# Junior Accountant at Innargi A/S

Do you want to join a fast-growing renewable energy company powering the way to a greener future? Would you like to be part of a dynamic organisation, learning and expanding your skills within Accounting? And do you have strong analytical skills combined with a flair for communication?

If so, then this position with Innargi may be your match!

As we grow our business with the development and construction of geothermal projects, we are looking for a Junior Accountant who can be responsible for our daily accounting tasks, supporting our Head of Accounting.

## Responsibilities

- Recording financial transactions in the general ledger and subsidiary ledgers.
- Reconciling bank and credit card accounts.
- Assisting with accounts payable and accounts receivable functions, such as invoice processing and collections.
- Executing weekly payment runs
- Registering purchase orders
- Performing month-end and assisting year-end closing processes
- Reporting VAT
- Supporting external audits.

Given that we are a small team, you will also be exposed to other ad hoc tasks.

The position as Junior Accountant is based in Lyngby, north of Copenhagen. The position can both filled as part time (30 hours) or full time (37 hours).

### **Requirements include**

To succeed in the role, you must have 1-2 years of experience from a similar position, with solid mastery of daily accounting tasks.

We expect high attention to detail and a self-driven attitude. We are working in an international environment, so excellent communication in English and great interpersonal skills are a must.

Knowledge of the Business Central or Dynamics 365 will be an additional advantage.

### **Background**

Innargi is a geothermal company delivering energy for heating, founded in 2017 by A.P. Moller Holding and today jointly owned by A.P. Moller Holding, ATP and NRGi. We have projects under development at different stages in Aarhus, Copenhagen, Holbæk, Skanderborg, Sønderborg, Poznan, Kiel, Flensburg, and Budapest.

We are a small entrepreneurial and highly energised organisation. We work hard and we have fun doing it. As a team, we see our different backgrounds and experiences as a genuine source of strength, and we respect each other's technical and functional competencies.

Our structure is lean and flat. We believe strongly in value creation through empowering our employees, and you will have significant independence to impact your role, as well as be expected to collaborate across disciplines.

As Global warming continues to impact climate change, it's time to rethink the way we heat our urban buildings. Innargi wants to heat millions of urban homes while leaving zero impact on our planet by unearthing geothermal energy.

Our natural world is precious, and we can all make small changes to the way we live. But what our climate really needs is change at scale. Solar and wind have already transformed how we produce energy. What those technologies have done for electricity, geothermal can do for heating.

Innargi has the team to make it happen. With our combined knowledge and expertise on subsurface, drilling, engineering, and energy planning and through close partnerships with local district heating companies, we are in a unique position to turn ambitious plans into real change.

## Application

It is a requirement that you hold a valid residence and work permit for Denmark, as unfortunately we cannot sponsor or administer this.

**We look very much forward to hearing from you.**

**Deadline for applications:  
27 September 2023**
