

Finance Business Partner at Innargi A/S

Do you want to join a fast-growing renewable energy company powering the way to a greener future?

Do you have excellent analytical and problem-solving skills – and strong financial modelling skills?

Then this role as our new Finance Business Partner might be just what you are looking for – apply today!

The **Finance Business Partner** will be responsible for advising on, monitoring and managing the cost control process for our projects and future operations. This role involves engaging with the different departments, analyzing financial data, preparing cost reports, and identifying areas for cost-saving opportunities. The Financial Business Partner will work closely with various departments to ensure financial discipline and effective cost management across the organization.

Responsibilities

Key Responsibilities:

- Monitor and control project and operational costs to ensure they stay within budget.
- Prepare and maintain cost reports, highlighting variances, trends, and potential risks.
- Assist in the preparation of annual budgets and forecasts, providing accurate cost projections.
- Analyse financial data to identify cost-saving opportunities and provide actionable recommendations.
- Coordinate with project managers, department heads, and other stakeholders to ensure accurate cost tracking and forecasting.

- Ensure compliance with financial policies, procedures, and internal controls.
- Review and validate supplier invoices and contracts for accuracy and compliance.
- Support month-end and year-end closing processes, ensuring accurate cost allocation and reporting.
- Assist in the preparation of financial analysis for senior management and external auditors.

Requirements include

- Bachelor's or Master's degree in finance, economics, engineering or related field.
- 5+ years of experience with similar role
- A sound understanding of market drivers, regulatory regimes, and accounting standards – or willing to learn.
- Strong financial modelling skills (Microsoft Excel) and experience working with complex financial models.
- Excellent analytical and problem-solving skills
- Strong attention to detail and ability to manage multiple projects simultaneously.
- Strong communication and interpersonal skills and experience with PowerPoint and PowerBI.
- To succeed in this role, it is important that you are proactive, have a drive to succeed and the ability to work independently as well as in teams.

Background

Innargi is a geothermal company delivering energy for heating, founded in 2017 by A.P. Moller Holding and today jointly owned by A.P. Moller Holding, ATP, Sampension and NRGi. We have projects under development at different stages in Aarhus, Copenhagen, Kiel, Berlin, Poznan and Łódź.

We are a small entrepreneurial and highly energised organisation. We work hard and we have fun doing it. As a team, we see our different backgrounds and experiences as a genuine source of strength, and we respect each other's technical and functional competencies.

Our structure is lean and flat. We believe strongly in value creation through empowering our employees, and you will have significant independence to impact your role, as well as be expected to collaborate across disciplines.

As Global warming continues to impact climate change, it's time to rethink the way we heat our urban buildings. Innargi wants to heat millions of urban homes while striving to leave zero impact on our planet by unearthing geothermal energy.

Our natural world is precious, and we can all make small changes to the way we live. But what our climate really needs is change at scale. Solar and wind have already transformed how we produce energy. What those technologies have done for electricity, geothermal can do for heating.

Innargi has the team to make it happen. With our combined knowledge and expertise on subsurface, drilling, engineering, and energy planning and through close partnerships with local district heating companies, we are in a unique position to turn ambitious plans into real change.

The position will be based in our Copenhagen headquarters.
