

Financial Accountant at Innargi A/S

Do you want to join a fast-growing renewable energy company powering the way to a greener future?

Do you have experience in accounting and an eye for details?

Are you structured, proactive, and ready to take responsibility for financial processes?

If so, this Financial Accountant position in our Finance department at Innargi might be your next career move!

As a Financial Accountant at Innargi A/S, you will report to our Head of Finance and work closely with our Senior Accountant as well as our Student Assistants.

You will support the team with day-to-day bookkeeping and accounting tasks, contributing to the smooth running of our financial operations.

This position offers a great opportunity to take responsibility for key accounting tasks and ensure high-quality financial processes within our organization.

Responsibilities

- Work as part of the finance team serving our Danish, Polish, and German entities, with primary responsibility for tasks related to the German entities
- Handle accounts payable processes, including vendor creation and invoice processing
- Manage purchase orders and ensure proper approval flow
- Prepare and execute payments, and post incoming and outgoing payments
- Perform balance sheet reconciliations and maintain accurate ledgers

- Handle bookkeeping for the German entities in Dynamics 365 FO
- Prepare and submit VAT reports for Germany
- Collaborate with our German auditors on annual report preparation
- Ensure compliance with local accounting regulations and internal policies
- Support the finance team with ad-hoc accounting and reporting tasks across entities

Qualifications

- Solid experience with general accounting and bookkeeping
- Experience with Dynamics 365 Finance & Operations (D365 FO) is a strong advantage
- Good understanding of VAT and accounting principles, ideally with experience in German VAT and reporting
- Strong attention to detail and a structured approach to work
- Ability to manage multiple tasks and meet deadlines
- Proficient in English and Danish – both written and spoken (required)
- Proficiency in German is a strong advantage
- Team-oriented mindset with the ability to work independently on assigned responsibilities
- You enjoy collaborating with others and are eager to contribute to a positive team spirit.
- Experience is valued over formal education

Background

Innargi is a geothermal company delivering energy for heating, founded in 2017 by A.P. Moller Holding and today jointly owned by A.P. Moller Holding, ATP and NRGi. We have projects under development at different stages in Aarhus, Copenhagen, Kiel, Berlin, Poznan, Łódź.

We are a small entrepreneurial and highly energised organisation. We work hard and we have fun doing it. As a team, we see our different backgrounds and experiences as a genuine source of strength, and we respect each other's technical and functional competencies.

Our structure is lean and flat. We believe strongly in value creation through empowering our employees, and you will have significant independence to impact your role, as well as be expected to collaborate across disciplines.

As Global warming continues to impact climate change, it's time to rethink the way we heat our urban buildings. Innargi wants to heat millions of urban homes while striving to leave zero impact on our planet by unearthing geothermal energy.

Our natural world is precious, and we can all make small changes to the way we live. But what our climate really needs is change at scale. Solar and wind have already transformed how we produce energy. What

those technologies have done for electricity, geothermal can do for heating.

Innargi has the team to make it happen. With our combined knowledge and expertise on subsurface, drilling, engineering, and energy planning and through close partnerships with local district heating companies, we are in a unique position to turn ambitious plans into real change.

The position is based at our headquarters at Amerika Plads 29, Copenhagen. We offer great flexibility, including the possibility to work from home as part of a healthy work-life balance.
